How was kudlow. . not Einsteins cousin as you said
01:18:02 pm

Steve Bannon

Much more on point than I thought ---in tough spot
01:19:57 pm

How so?
01:20:25 pm

Can t say what he truly believes?
01:20:35 pm

Steve Bannon

Poison atmosphere-- much worse than he thought --- he is focused on china trying to get off the dollar--- and the financial crisis he thinks we may be building to
01:22:04 pm

He is not wrong. A crypto yuan is trouble in ten years
01:23:27 pm

No need for swift. Swift is yesterday , expensive. No privacy. . the internet already is a distribution network. . the key is stability. For both the country and the various currencies. . bitcoin s. Fluctuate too much to be a store of value.
01:24:41 pm

Steve Bannon

Gold backed yuan for oil transactions

01:27:56 pm

SB

No . Not enough gold . Gold is for Indian jewelry and dentists

01:29:03 pm

o

Steve Bannon

LOL!!!

01:29:18 pm

the beauty of a blockchain like structure is that it is transparent and private. The amount fixed . The trick is to fix the "value" , not simple . But key to the city.

01:30:41 pm

the trick is a hedge. . it doesn't restrict the value. Per se. but balances it . / . the other trick is to do it under a populist structural umbrella where all transaction are inside the umbrella. , like a coop farm. If you have the farm next to mine. And you grow apples and I grow tomatoes. If you exchange an apple for my tomato. We both have income. However if we merge our properties into a coop farm we can have use of as many apples and tomatoes that we like. If you teach me politics and I teach you math , we both have income unless we work for the same co. then of course. We can exchange info.

01:35:00 pm

when are you in ny this week ?

03:02:07 pm
