Steve Bannon

Thanks again for yesterday --really terrific day
11:21:15 am

we should do more fun things. life is short . 1 . joi will organize a meeting with the powers behind times up. (they prefer academic setting for cover) already in the works. . 2. where are you now based in DC . do you need another base. ? (financing) . 3. I thought summers thoughts re manufacturing jobs had legs. can you "manufacture "jobs instead . or does the base require the former .?
