After zareed you can add at least two more agencies to your list of eavesdroppers. 😊/. I would try to emphasize (so that the people in Europe understand) , that it is not the president giving orders to the courts or congress but his very own branch of govt! to the people that work directly for him in that branch .

You can explain to MBZ that they can issue a coin that is sharia compliant. No interest. Cannot be changed. ( smart contract ). sharing aka sharia

09:25:51 am

Sharecoin. Many versions , some for internal and some for external transactions. All good?

What did u think of the CNN interview ???

09:52:24 am

SB

I thought when he smiled he looked like a brown skeleton that should be printed on a halloween shirt.

o

Steve Bannon

Wow

09:54:04 am

SB

He was unsuccessfully trying to fight in an upper weight class . You were impressive. . His questions re taxes , silly, . I think you might want to consider dumbing down some of your answers. So that the deplorables get. it. Repatriation of corporate money. Means JOBS!!. . asking for a trillion dollars. . sounds like hyperbole rather than true asks.

10:01:19 am

Reducing regulations sound like a benefit for the elite. , not workers. . unless it translates. To Jobs

10:03:18 am

I'd also consider softening the -all black -look as the message is strong enough doesn't want to appear dark :)
