even those that despise you , find the new yorker thing disturbing. nice pivot . along with movie. use wisely

Steve Bannon

How do I use wisely

12:32:13 pm

I will transmit the views of others with more experience than me. in your current arena. 1. a concise vision for what comes after the burning down. 2. be seen to pose more complicated questions than often trying to give answers. 3. I would think about your brand. . represent that American dharma is the first in a series. . 4. stifling open debate comes not from hate but from fear. the left needs not to be afraid to look in the mirror .

12:38:45 pm

expound on Gutless. i like the term but loses its appeal if directed at only one person.

The media screening supposedly went great---SRO; no walks out with 20 people standing ; no boos @ end which never happens in Venice ; strong applause which never happens by critics or media; --- PR guys said response was strong with 20% of who they caught said Errols best work--- everything embargoed until tomorrow premier so who the fuck knows
