Indonesia's rupiah weakened past 15,000 per dollar for the first time in 20 years as sentiment toward emerging-nation assets soured and oil prices jumped.

Two separate things. Trump piece on taxes , is unfair. 2. Unrelated to 1 . your media structure for lots of reasons should be set up sooner rather than later.

Nyt-By age 3, Mr. Trump was earning \$200,000 a year in today's dollars from his father's empire. / this is UNFAIR- what are " today's dollars? The article was written by financial illiterates

09:56:05 am

The times did exactly the same as they accuse Donald. Wild exaggeration

10:06:16 am

They never say how they calculated these numbers. They ignore taxes paid along the way. etc

What are "today's dollars": The IRS reviewed the issues . And agreed with trump. " if my grandfather would have bought one hundred dollar in treasury bills. the article to be accurate would have said when Donald was 3 years old he received 14k per year. And it doesn't say whether taxes were paid on that

10:50:47 am

Instead it says 200k in today's dollars and when he was 8 he had a million .

10:51:45 am

Instead had Fred put 2k dollar in treasuries it would be worth 1 m today . All silly
