sleep

Im sympathetic. you need some wins. its awful dealing with theses morons. stifled  
by the stupidity and like running in deep mud, requires slowing down and careful  
steps -take less effort and acheives the same result. however, these are the times  
that short mid and long term strategy , required. there is something very odd - a  
malaise has descended . on those usually passionate . about xy or z. . to some  
extent i call it the smartphone dilemma . no one is really passionate about the next  
iphone as the marginal benefit is really not that great. .  
02:12:08 pm
