Subject: Great St. James

Good afternoon,

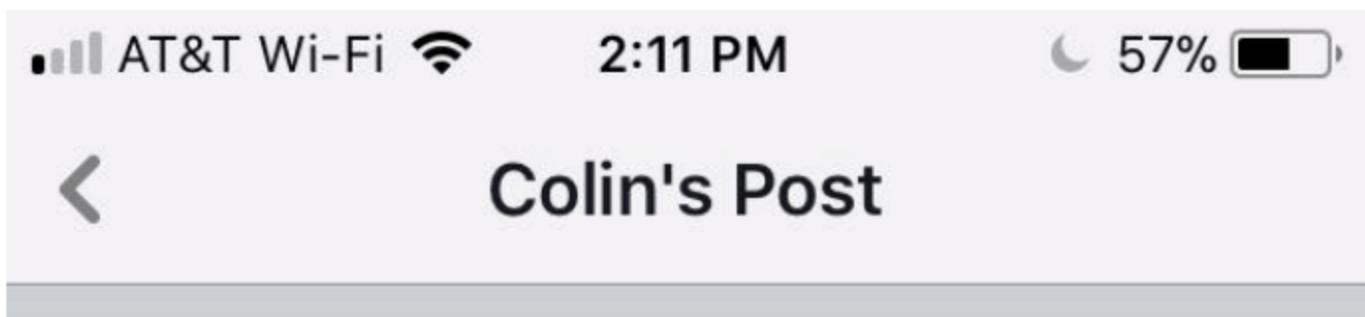

Please see the attached screenshots showing apparently new earthmoving activity on Great St. James.

Is this activity sanctioned by DPNR, or does this represent an ongoing violation of the stop work order issued for illegal construction by the owner Jeffrey Epstein?

If so, what enforcement action has been taken to date, and what other steps does DPNR plan to take to achieve compliance with the territory's CZM laws?

Thanks in advance.

-Suzanne

Mr. Epstein bulldozes away with complete disregard for any environmental laws in place in the Virgin Islands.

New road is right next to a salt pond wetland area and no sediment barriers in place. (Not that they work anyways!)

How long are we going to sit back and watch him destroy our playgrounds? One solid rain and the runoff from this road is going to smother another pristine reef! Is DPNR complicit in his doings? Kinda make you wonder huh?
