Good morning Boss. This is Ramon, i am so sorry to bother. I am just concern about if you are aware of the real situation about Carlos illness. He was fighting for his life for about three weeks due to complications after a major food poisoning on one of the red Hook area restaurants. He and his family have gone thru their worst episode in their lives, and is not done. He is more stable now after 6 surguries. If you have any questions please contact me and i will be glad to give details about his health. Thank you sir. Have a great day.
