06:52:45 pm

Will try you later! Remember:

Facebook made digital the social practice of looking at yearbooks

Twitter made gossip digital

I am trying to make Africa's largest and most enduring social practice of community savings digital.

07:34:54 pm

My head start is that it wouldn't be ad supported it would start as a bank. And disrupt the banks.

Right now Facebook and Twitter all trying to add banking.

I start w banking.

07:36:06 pm

Then it becomes credit (here's MasterCard opp?) and commerce (here's alibaba opp?)

All about trust and it's there just not digital.

I spent 10 yrs and 100m building this huge network across lots of countries. It's very real.

07:37:20 pm

We have full digital data for 5000 slums....

Anyway more later

Crazy and totally outside the box but I'm right

07:37:51 pm

I have dinner w the Islamic development bank team right now. I am going to Jeddah to spend 10 days w them building their strategy once again.

10:26:44 pm

Seriously all heads of state and presidents seem to "need" my help

10:27:02 pm

My turn to be president of something. But first - my company. I know it wil make a lot of money

10:27:21 pm

05:48:42 pm

If you could pick three things to do on "primary health care" in Africa what might they be

05:49:03 pm

Not philanthropy

05:49:09 pm

CA n be super crazy just need to be plausible

05:49:24 pm

I think some newer form of insurance based on mobile phone ubiquity and data

05:49:50 pm

Maybe some centrally located 24/7 dial-a-doc with basic services and advice

05:50:20 pm

Those are only two real scale profitable and demand driven things I can think of

05:50:52 pm

Obviously infrastructure too - like continent wide health clinics like tiny pods. Maybe like "clinic in a box" w top 100 meds treating top 50 conditions staffed by nurses or even non docs that could call into a larger 24/7 center or refer
