Do I count as youth?
:-)

How you

motherly

10:24:30 am

Hardly

05:39:05 pm

Any new ideas for Steve btw? He's having fun I think but also wants to move beyond VC

10:54:43 pm

SO SO smart and needs a good home

Are you awake

03:23:09 am

I gotta pick a headshot for an awards thing they go to press tmr

03:23:33 am

03:24:01 am

I like 2 or 5

Hi

03:09:50 pm

Chose 4

03:09:57 pm

Can I come visit you in island sometime in December or maybe early Jan just for a break

03:10:22 pm

Ok

03:10:36 pm

The little biz I created and tech kinda growing up in a cool way. Staying quiet and testing and developing but if I get it right = super neat

03:11:56 pm

You will be impressed hahaha

03:12:03 pm

2015/10/17

look forward to it

This morning I did a keynote speech at a tech conference for 10k ppl about how we create consume and analyze the world's economic data at the world bank (I manage the corporate telemetry). I did a live demo of the site I created and showed how we automated data flows for KPIs etc was very fun and cool and all tech ppl that were nice

01:41:46 am

Here's the audience

01:42:04 am

Here's me

01:42:15 am

Yay

01:42:16 am

Oh and check it out

Hi...

01:53:33 pm

Are you ok

01:53:39 pm

Great

01:53:54 pm

Any new insights on world science or humanity ?

01:54:42 pm

Brains are a part of a system two brains make s full system . Looking at only one is misleading

02:03:17 pm

It's not really two it's sort of like one that's divided during evolution

02:06:01 pm

Not evolution

02:06:07 pm

It's

Like a city separated by a lake or a border or something

02:06:35 pm

And it's actually three

02:06:52 pm

Peripheral central mesenteric

02:07:03 pm

No two separate individual s

02:07:18 pm

It's the interactivity that matters - too many shares fell types to be fully different. It's more Differentiated than different

02:08:00 pm

Shared cell types

02:08:07 pm

Anyway would love to see you lots going on

02:08:18 pm

And it's been too long

02:08:23 pm

You aren't getting any younger hahaha
