Idea

10:55:04 pm

What if I (we) created a massive DAF at the IFC which is the private sector arm of the world bank.

It would mean super easy access to all countries around the world plus all the banks advisory services and combined inputs including our reinsurance arm (non honoring of sovereign obligation products)

10:56:14 pm

Way cooler than trying to create it elsewhere.

It's all private sector not charity. But can be high risk and do blended finance w all types of stuff and also leverage govt money.

Bet I could get soros and zuckerberg and maybe even bill to do it.

I would run it and create it at IFC

10:57:20 pm

And I know you don't celebrate by merry merry 🌲

Interesting

12:57:41 am

Small window of opportunity to pursue and best strategy might actually be without BillG for now

02:55:13 am

Any thoughts

One downside to a Bank affiliated DAF is the governance  
05:53:26 pm

All member countries would want to delegate pipeline or sit on a board that decides

05:53:45 pm

Right now the board of the world bank decides on every loan

05:54:04 pm
