Can't convince him trying
12:47:40 pm

no problem. . interesting is that the philanthropy dollars will start flowing into trump resistance. climate . environment etc. , nice impetus to shake loose some of the private charity dollars.
01:04:40 pm

1. He's not sure on above

2. He wants to understand admin but the team around him working through older networks since his advisers are all risk averse and mostly from prior admins. Feels to me like washington different now.

3. He's speaking to Pence now. His team says that's enough.

4. His team (and to some degree probably also him) worry about engaging anyone beyond Pence and Jared (they think Jared more important than anyone)

5. He also says Dina Powell (former Goldman Sachs now advising ivanka) and former msft Chris Liddell (WH adviser) will help him.

6. Needs a person w health credibility on the inside. Concerned w huge distraction around Obamacare and also funding cuts for health programs both domestic and abroad

7. Worried about appointees for CDC NIH and FDA.

04:05:35 pm

8. Says hi. Wishes he engage more and would love insider baseball but likely has to be through trusted third party as he is watched very closely. Doesn't know Bannon or Barrack and has only heard un positive things about them.

04:07:00 pm

9. Says surgeon general would be good if I could also somehow get the ear of trump and help him on all the other health issues - we discussed a few really good ideas.

... COMBINE UNDERSECRETARY AND SURGEON GENERAL ROLES: Right now the surgeon general reports to one of the undersecretary for health in HHS. That undersecretary Manages international health. He thinks I could do both roles.

... TRY TO BE WHITE

HOUSE HEALTH ADVISER: the HHS secretary may block but should try; could manage the BRAIN initiative and help vet all the health candidates for roles etc since I know all of them

... TRY TO BE WHITE HOUSE

INTERNATIONAL HEALTH ADVISER: focus on pandemics and vaccines and bioterror but sneak in other stuff as able

04:11:30 pm

Yes , but not by trump . New medical group to be announced to study va . Mayo Cleveland involved

04:12:16 pm

His problem is that he knows no one and he's worried about his reputation now and in the future and wants to remain "a political"

Not sure that's realistic under this admin

He thinks trump likes him and will see him tonight at alfalfa and will also see Jared

04:12:26 pm
