I'm going to work on Larry and see if we can find a way next time you are both in the same time zone.

Might mean DC or Boston

04:14:41 pm

1212 5333739

Larry is Melinda

04:23:48 pm

They are very close and she trusts him for sure. So does Bill.

04:42:27 pm

But he is the schedule gatekeeper

04:42:33 pm

He seems to get involved ALWAYS when b meets with me, I suspect that's why / watchdog

05:07:41 pm

Back to a different question

Is there any way to find real opportunities to make money (for me) in this volatile but bullish economy?

My own money.

05:11:15 pm

Surgeon General will try for sure but it's a long way off and I'm not sure the world of BG will be at all pleasant.

05:11:54 pm

Update --

1. Our friend is now pretty rapidly against admin and says they don't know what they are doing and that the time he spent w Jared and Ivanka made him scared for the country and more worried than ever. I worry what happens if he gets on Trump's bad side.

2. His other half is fighting tooth and nail to have me NOT join his Team - not surprising

3. He's thinking of opening a DC office to do some small projects but mostly just keep track of things - man named Geoff Lamb (I know him -- he's similar in traits to Larry) will run it. Larry would like to place me in DC office away from Seattle to work w Geoff

4. Larry is annoying. Our friend hates conflict and won't act. Not sure what to do. VP of Schmeckelville might be a good interim option blah

09:00:00 pm

Do you know someone named Rich Strombach

10:42:56 pm

1212 5333739

Know of

10:44:35 pm

Eva has mrsa

10:44:51 pm

Is he risky or real

10:45:04 pm

OH NOOOOO

10:45:07 pm

1212 5333739

Iv vanco  
10:45:08 pm

[Redacted]

where?  
10:45:10 pm

1212 5333739

Ny  
10:45:22 pm

[Redacted]

Where mrsa?  
10:45:26 pm

1212 5333739

Mount sainai  
10:45:49 pm

[Redacted]

Can I send her flowers? Is she an inpatient?  
10:46:01 pm

Please keep me posted. I know she will get the best best care but if there's anything I can do please let me know.  
10:48:21 pm

It's usually a skin infection so hopefully they caught in time  
10:48:43 pm

1212 5333739

Just sighed herself out AMA  
10:48:45 pm

Oh lord

10:49:09 pm

Please don't let her

10:49:14 pm

It is fixable but if it spreads or becomes resistant to vanco there really aren't a ton of options

10:49:36 pm

It feels small and silly especially if it's just a small pus pocket or Skin infection but it is a big deal

10:50:03 pm

1212 5333739

Post surgery implant

10:50:26 pm

Sigh

Not good

10:50:36 pm

Please help her cope and have the treatments. Waiting is bad too.

10:50:56 pm

Is she just scared or does she doubt the diagnosis? You can probably help with both of those things

10:51:23 pm

1212 5333739

Girls!!!

10:51:41 pm

Sometimes we need help

10:52:46 pm

If there is Mrsa on the implant they will need to replace it ASAP

10:53:25 pm

1212 5333739

How long iv

10:53:50 pm

For now it's 6 weeks IV antibiotics but implant should probably come first

10:53:58 pm

She has to clear the infection before they Consider stopping meds - could be months

10:54:24 pm

Only IV works she will need a catheter - PICC line a pain in the butt

10:54:43 pm

2017/01/30

Any progrsss w Eva?

01:54:33 am

How is Eva?

12:20:10 pm

1212 5333739

home with an IV . probably go back today to hospital. no fever

12:21:32 pm

Good !

... as long as she is getting treatment. She doesn't have to stay in hospital whole time of treatments - just long enough for them to make sure they have removed any source (like implant!) and that her dosing is stable. Vanco has this peak/trough adjusting at the beginning. Plus they will need to make sure it stays Vanco sensitive.

12:23:43 pm

1212 5333739

I'm told there are potential kidney issues?

12:31:46 pm

✓ Sent

Yes

12:34:07 pm

With vanco there is a risk but hard to know full extent of her infection etc

Make sure her docs are awesome! I know they will be ...
