Issue really is about how easy it is
For fndns to spend tax dollars of Americans. Like how generous would they be if they had to spend their own money?

Also -
1. All laws that apply to us foreign policy should be applied to charitable orgs spending us tax dollars. So the global gag rule should apply Across philanthropic dollars too. If ppl want to spend
Personal money they can just
Not charitable. This should be done immediately.

2. Should not be allowed to grant to foreign Gov't w Charitable dollars.
That's basically lobbying or a bribe - charitable money shouldn't be allowed. Relates also to #1 above.

3. If charities want to spend charity dollars outside us should be required To go through USAid so it isn't being sneaky and on other agendas.

4. USAID should have a big charity division that does only this for
Science and tech.
