Long story!! I'm have some social pension because my dad died! it is received only by children who are students! Every year you have to prove to the pension fund that you continue to study! I sent a letter with documents every year and there were no problems! but for some reason the last year my letter was not delivered! thus, I must return all the money that was given to me during the school year! it is about \$ 100 a month! I filed an appeal and they will reconsider the decision, but this is just a long process, summer..

08:48:12 am

█ I only found out about this recently and provided all the information) maybe it will be quick, maybe not)))

With China, too, everything is difficult !!! you must be there 41 business days + 12 weekend day! This is a contract for 2 months, then they to pay you 20k! sometimes they can shorten the time, but this is very not often! I shoot a magazine at the end of July and in September! Europe is a priority! Not a china!! I am pretty sure that China will refuse!(besides, madness is happening there now !! so many high level models out there for a lot of money! for example, if you make some good shows and magazines you can get 40k in 2 months! I'm know many girl who made it!! China works very strange! I'm don't know how long this system will be still life, but hope a lot)) how much you get fix price, depends on your agent in the world! you for sure need to have top agencies all over the world (img, ford, elite, next) then they think you're cool and sell you for a double price china client !!!'s strange, but you can also find a model almost same level in China! and she can be in china without fix price! I'm don't know maybe she not from next agency!! But it's so important?? For China maybe 😊 it is very important how you present on the international market, who u agent in market, which countries, which agencies, which magazines, show, compain! From China, many people take away a lot of money, just as the other half do not take anything away! I was lucky with my agency and I got great luck working there for this money! I just hope to return sometime for the same price! My agency really very good!! I'm don't wanna lost them! But last time I'm was work every fucking day!!! China kill u from fix price contract!! From 5am to 11pm! Every day! The next free time will be in October-November for me! but it's time for ny !! Let's see!! this will be decided by my agent!

09:29:14 am

China is interested in inviting high-end models, middle level, so they offer more fix price for this ! Until that time, anyone of the models not go in China! I also do not understand why 95 percent of models in China are Russians! 😞

They offered me this summer for 1 month for 10k, but I refused because of Canada 😊, and honestly, because my skin was so frustrating for me !! I am afraid to work with makeup artists! and even come to China in this form! for high money you work for good clients and they can send me home with this! Also remember this and never call to china again, for example! i am also afraid of it! My agency think same ! After Paris Im have confirmed tickets for Milano ! But we cancel , for didn't show all this!! Im don't know really about all!!!
