i have fun decorating idea. the metal enclosures are like cages. I think they should enclose something interesting. for ex the staircase instead of white fabric , why not a color? yellow. ?? or something you like, it will set off the center of the house. . outside you could put hedges inside and when they grow through the cage they will be beautiful. . or interesting objects so people have to look inside and between the ornamental grills

I also would add things that are very personal to you. so it is jabor's house. photos? objects that you have bought in strange places. . ? some things that only you know why they are there .
