01:11:05 am

I had 2 ovarian cyst surgeries : one when I was 14 and another one last year

01:13:54 am

And I do have a new one one

01:14:04 am

New cyst?

01:16:47 am

Yes , unfortunately

01:19:45 am

Which gyno do you use

01:31:42 am

I have very good doctors in New York I'll help

01:39:58 am

I used to have a doctor in Ukraine , but she wasn't good . And last August I had an emergency surgery in NY - so after my surgery I went to see doctor here

01:43:54 am

Who??which hospital

01:46:00 am

Lenox , doctor who did surgery for me- I never saw her after that cause I couldn't make an appointment with her, she was " too busy " to see me after surgery and take of my stitches so I went to an emergency room and they took it off and I don't remember her name it's in my medical records . But after I was looking for a good doctor and my friend recommend me dr. A.Shifrin - he has a privet room uptown and he speaks Russian, so it was easy for me to understand - that's why I went to see him .

01:52:14 am

Understood - now you have a friend (me) that if nothing else csn get you vip attention

02:11:44 am

Hes very good. However. The key in New York like everywhere else is who you know. . did you have hpv vaccine?

02:21:37 am

U are right - everywhere is the same rule : not easy to get something if u don't know anyone .

Oh, I been waiting for vip attention and finally I get it (joking), but Thank u !

No, I didn't have hpv vaccine

02:29:07 am
