Don't let these doctors touch you

08:16:42 pm

o

Get it 👍 : no bad thoughts and no me thoughts about surgery in Mexico!
Thank u for your advice and support !
Have a great flight and wonderful rest of the day !

Do you take contraception pills . If not you should, it will get rid of the cysts

10:36:59 pm

o

I am not using any of the pills for the last 3 years . Cause I was so worry about my red spot on my face (the same as yours) and I was sure that it's cause I am allergic to something - so I decided not to take any of them + I didn't have a regular sexual life and non- of gynecologist recommend it

11:47:21 pm

And if I decide to take them - I feel like it shouldn't be random pills ! Doctor should see my blood test - and chose right one for me (cause if it's not right now girl might have problems with her skin, over weight, emotional unstable - and obviously I don't want that)

Agreed- 1 . You are already emotional! 2 the newer pills have much less side effects. My doctor that reviewed your cyst report said she would try . No surgery!! We can FaceTime tomorrow or whenever convenient. I also will explain insurance

12:14:07 am

o

I could do FaceTime tmr in the evening :what time is more comfortable for u ? U gave me a big HOPE about my surgery situation ! Thank u .

12:58:10 am

K

It is not hope. It is fact. And you can rest easy . Trying to make decisions re pills , surgery , health when you know so little is not smart. . sorry . You are going to drive yourself crazy . Tomorrow might work. Or wed. Your call. Sleep well you deserve it . No worry promise

02:21:28 am

Please research , if you don't know already. Rusalana. K...

Korshunova's most telling message came in March 2008: "I'm so lost. Will I ever find myself?".[12]

10:44:10 am

Then she jumped from a window

10:44:58 am

Window and committed suicide

10:45:06 am

o

I heard about her : it was a lot of tv program about her by the time it's happened .
Why did u decide to send it to me ?

12:23:12 pm

K

I knew her very well. She drove herself crazy . Worrying and took her own advice and of her boyfriend. That knew little as well. She went to doctor after doctor. Anxiety and bad answers. Had a very bad ending. She was great. Smart but so lost and confused and worried . It was easy to have been another ending. But she didn't have a father and no one was strong with her .

12:28:18 pm

Each time she went to a doctor they told her something a little different. . her boyfriend was afraid she would gain weight and not be able to earn money. It was horrible. Her mind drove her to throw herself out of the window.

01:29:00 pm

So when I hear from you. I might not want to take medicine to fix my cysts. Because it might make my skin bad . I get worried

02:00:45 pm

o

No, Jeffrey - i didn't mean that I will not take medicine to fix my cyst ! I would love to have a medicine which can fix my cyst - no one told me that it is a medicine which can fix it , we talk about contraceptive pills - and the reason why I didn't take them it's cause I don't have a regular partner , so why should I ?

02:21:10 pm

K

Health

02:51:20 pm

Contraceptive pills chosen correctly will most likely fix everything. Going to doctors for okder women is not what you need. I spoke to three gyno. And each suggest contraception hormone etc

04:09:23 pm

o

Jeffrey, also if u are have a time during next few hours i could talk or at the evening , or tmr - what will work for u

04:09:26 pm

K

Non one of the doctors I saw suggest it to me (even Dr.Shifrin)

04:10:05 pm

Simple answer but they don't make money:).

04:12:26 pm

Ill try in 40 minutes to FaceTime

04:12:53 pm

K

Ok

04:13:06 pm
