he crime of obstruction of justice occurs when the effort is made to thwart or impede the administration of justice.

"For example, in obstructing justice through coercion, the crime is complete with the attempt and whether the attempt succeeds in dissuading the witness is immaterial. Thus, if a defendant harasses or physically prevents a witness from appearing or testifying, or attempts to do so, such actions constitute obstruction of justice, regardless of whether the witness ultimately appears or testifies."

Your shrink im sure has motivations to make you calm and knows a great deal more than I about your mental health. However , putting the blame on her for the no deal ie her inability and confusion instead of focusing on what you could possibly do better does not sit well with me. Again he is the professional Im only the friend

10:09:39 am

You may tell me , this is what I want . I take it on face value, he might understand with more nuance and suggest it is not what you really want but only what you are saying. Too complex for me

10:11:15 am

Larry Summers

What u say is surely. right. Better to focus on what one can control and optimize than to blame external factors.

11:07:05 am

In fairness this is not I think what I was saying. She has Jekyll Hyde aspect not all driven by my actions. Reasonable to wonder odds that if it was what she wanted she could achieve Jekyll 80 percent of time

Btw. Radio silence for last 36 hours

1. There is a cultural translation problem. . Jekyll is face. Hyde is real. Not the same as western. She would argue that everyone is part Hyde. But not as accomplished at appearing Jekyll. I would expect more like thurs or fri for contact.

Forget Jekyll Hyde. It is reasonable to think about how pleasurable or unpleasurable this would be in steady state.

11:21:09 am

1212 5333739

Steady state includes regular amplitude swings:)

Yes I'm familiar w Fourier analysis.

Question is it more freudian or Fourier

But part of rationality is deciding how one lies whole cycle not supposing one can have only peaks.

Here is the quote: "Aycok and her colleagues recruited students who identify as female and who were attending one of the Conferences for Undergraduate Women in Physics, a series of meetings held at various universities. The scientists asked participants to answer a questionnaire about sexual experiences,... Of the 455 people who responded, 338 reported experiencing some form of sexual harassment, including gender harassment — such as being ignored because of their sex or gender, or being told inappropriate jokes — unwanted sexual attention or a combination thereof during the previous two years. The incidents had taken place in settings associated with physics: including in research labs, classrooms or university departments, or at work-related events."

It is blather

Lets wait and see. Something like You had other things to do. Like responding to people that respond to you. You need to write your chapter , you hoped she would be in it , but as she said she wanted space. You intend to give her lots of it 😊

06:59:04 pm

Im focused on the future and as you prefer not to be. Part of it. I have things to do that take priority over another economics papaer

07:03:09 pm

LS

1212 5333739

Strong is not mean. You are matter of fact. I gave you a chance you blew it off. I get it. It took me awhile because I had such strong feelings. But it is sinking in . . Im sure your paper will be just fine without my input

07:04:49 pm
