Just did drive through with Amy on LSJ.

03:03:11 pm

3 issues: rubble pushed closed to southeastern salt pond out near Egyptian building, southern shoreline created near little stone hut and road expanded near northern point guest house - we think those are only things that could be raised.

03:05:49 pm

[REDACTED]

Do we remove prior to inspection?

03:28:40 pm

[REDACTED]

It will look terrible because it will screw up water quality so it will be obvious plus they have photos of it.

03:38:48 pm

Salt ponds look awesome on GSJ. Two barge landings are the issue. Again they have photos
