Deepak

I worked all day to create my ultimate wish list and sent you a long email along with a PDF of You Are the Universe  
Even if I got 5 % attention I would feel the book and controversy it could create would result in a mainstream conversation. I don't mind being called a crank but would loved the ideas discussed even if they are trashed  
I made sure through Menas and another science writer that the physics issues represented are accurate  
I'm grateful for any help but more than that your friendship  
If you're ever up for an adventure in Australia let me know

D

Does 1 PM work for you for FaceTime call ?

11:31:12 am

yes great

11:31:44 am

Deepak

Thank you  
Will call then 🙏❤️

03:39:56 pm

on the phone with Seth Lloyd, quantum computation

04:11:06 pm

Deepak

D

Would love to meet him someday  
Can speak anytime you are free  
Just text me

04:25:46 pm

20 minutes?

Deepak

Sure

04:41:28 pm

D

now good

04:55:42 pm

Deepak

I'm going to think about what you suggested

05:31:35 pm

There is no reality that is outside of an experience or an interpretation of a real or imagined experience -including gravity

All experience is in consciousness alone - including mathematical imagination

05:44:16 pm

D

misha gromov responded as he calls it a persistent illusion.

05:45:32 pm

Deepak

Consciousness is fundamental , irreducible and without cause . It's the only God there is .

We are all God in drag

05:45:58 pm

Yes - even more - matter is a persistent illusion - an interpretation of qualia in consciousness

05:47:30 pm

Body / Mind / Universe are symbols / interpretations of experiences in consciousness  
of modified forms of consciousness  
Consciousness alone is

05:49:01 pm

Matter is a superstition

05:57:25 pm

Ok - will leave you alone for today

think and grow healthy. harnessing the placebo effect. scientists will have proof that  
they have asked for.

11:16:49 am

o

Deepak

Yes sir !

Thanks for your encouragement and support

There is a lot of politics in science

Will share somethings confidentially by email soon

In the end all is as it should be and I surrender to what is

Just finished my yoga class

I prefer the company of beautiful people and scarce friendship any day to that of  
scientists

11:41:36 am

Just finished my session with lovely Sarah

session is what you call it? no no- great scientists are awe struck children. mediocre ones are lecturers

11:44:31 am

Deepak

Session - he he !

Not what you might think - yet 😊

Agree re great scientists like Einstein Bohr Schroedinger Dirac Pauli Planck Heisenberg but not today's Nobel laureates and celebrity scientists who are technicians and full of hubris

Do watch the video I sent if you have time ability or desire . My fans on Twitter have sent it to Hawking Krauss Dawkins Harris Shermer Mlodinow Cox etc and it's getting huge social media exposure - mostly positive - some negative .

I'm having lunch today with Barnaby and Mlodinow who has been chastised by Dawkins and Hawking for hanging out with DEEPAK a charlatan

Mlodinow Shermer and I have made peace however

to demonstrate that quantum psychology exists . and first acknowledging that quantum merely means small chunks instead of continuous stream. ask why the world does not disappear each time we blink. we don't see the darkness when the eye closes. we see the world as continuous though looking at a video of our selves we can see how many times a minute our eyes close and open.

12:03:40 pm

Deepak

The world is a discontinuity  
It appears as a continuity because of the speed of space time events in consciousness  
A movie is a series of still frames that appears continuous if you move them at 28 frames a second  
Every moment of perception is a snapshot the creates the experience of observer and observed in non dual awareness

12:16:42 pm

Sorry to bother you this morning with numerous emails
