Deepak

How are you ?

There is no explanation for existence or awareness of existence .

Therefore there is no explanation for anything !!!!

Bewilderment is the only sane response to life !

Rumi " Exchange your cleverness for bewilderment "

Btw Neil deGrasse Tyson have invited me to his show - 1 hour on Star Talk

[Redacted]
Just talking about you. Where are you
03:05:45 pm

Deepak

I'm in San Diego just for today
Denver tomorrow
Where are you ?
The body mind is not the container of awareness
It is an experience in awareness
Our essential being is formless
Form is a distraction

03:30:12 pm

Classical physical objects are modes of sensory experiences in consciousness.
Quantum objects are modes of mathematical abstractions in consciousness.
Consciousness conceives governs constructs and becomes the physical world & its building blocks .

03:32:57 pm

The substantiality or solidity of the physical world is a mental concept for sensations in consciousness.

03:34:17 pm

Physical body and material universe are human constructs for modes of knowing in awareness. They are useful fictions but fictions nevertheless.
