Is gregs company truly gonna make it? If yes I can almost guarantee uptake in most African countries if he brings someone into the board of directors

09:58:38 pm

That person is donald kaberuka who in December steps down as head of African development bank.

09:59:16 pm

And raj shah who is head of usaid and former gates colleague will leave soon. Both know everyone. For the right fee and a board seat would be magic.

Elon on board too. Me as CEO.
