Its a shame your boss didn't meet with me yesterday. I would have told him the following. brexit is the first of many financial consequences of the vast refugee , human migration problem. there will be more. re 20 30. . the plan ignores, 1. we are in a zero interest rate environment. ( shouldn't be doing things without this major consideration. 2 saudi is a sovereign, great advantages. not used in the 2030 plan. . 3., wall street will try to screw him, by changing the terms at the very last moment.
