This Paul Allen thing is awesome awesome awesome

Wow

Total frontiers of craziness but all possible and high iq

04:27:46 pm

Paul invited only scientists and philanthropists no hangers on non media

I got invited as a neurosurg pioneer and they invited Stevie as a philanthropists hahah they didn't know we would come together

Of course Stevie didn't fill out any of the forms except dietary stuff for lunch

04:29:03 pm

His trip report (he writes them for every trip even vacations FYI) will be hilarious

04:29:25 pm

For example

He was very concerned about the speaker with pleated pants.
