I guess that's why all the James Bond guys had underground seismically and weather stable places.

I'm in NYC sept 25-27 another award deal for rockefeller would love to say hi if you are there

Lots before then tho

Have to send billg a note and yesterday Paul allen asked me to consider being his chief science officer (he spends billions on brain) that would really kill bill.
06:18:59 pm

Bill (jokingly?) threatened to fire me if I went to Paul's brain event. Hates him. Nemesis. Paul actually wrote all the code and is 50x smarter.

But also Paul doesn't like bill either. Whatever weird politics.

I owe you a few things in coming days ... draft note to BG, draft idea #2

I finally talked Stevie into talking to Bill. They will do Monday.

09:15:00 pm

Bill asked to meet me Monday bc he's leaving for two weeks but I'd prefer he and Stevie get a few more minutes together bc they haven't spoken since msft days.

We will meet October 2. He wanted to meet sooner but he's traveling for UN stuff and other for next 2 weeks.

09:16:30 pm

Hope you are doing ok

Very funny Jewish humor. From Stevie.

The screenshot shows a Twitter thread starting with Ben Dreyfuss (@bendreyfuss) asking "Jaws" because he didn't get a scholarship to college and his dad had to pay for it. A poll titled "Little White Lies" asks "What's your favourite Steven Spielberg movie and why?". The thread includes replies from Richard Dreyfuss and Ben Dreyfuss, with Richard Dreyfuss replying "I used the Poseidon money for your college." and Ben Dreyfuss replying "That wasn't college. That was rehab." and "I get them confused because neither took." and "Not nice!!!! But also not untrue". Ben Dreyfuss also replies "Dad please don't embarrass me in front of my SoulCycle friends". The thread ends with a reply from Internet Person™ (@TimHerrera) asking "Richard do you wanna come to a class next time you're in New York???" and a final reply from Richard Dreyfuss stating "Ben knows that the answer to this question is no, because though I support him, I am an old Jew and old Jews don't ride bikes."

Mitochondrial idea / arch capital very interested and am going to talk to their company called UNITY today

They also believe/do mitochondrial stuff but not for brain

Want me to come up w an ask

1. Do I want to run the clinical development program under their company
2. Do I want to be a consultant and involved from a distance
3. Do I want to be a scientific founder and let them build and do everything around w me driving idea

As you know the concept is localized (either nasal or endovascular) delivery of autologous mitochondrial transplantation

04:52:56 pm

o

Or is there a better way?

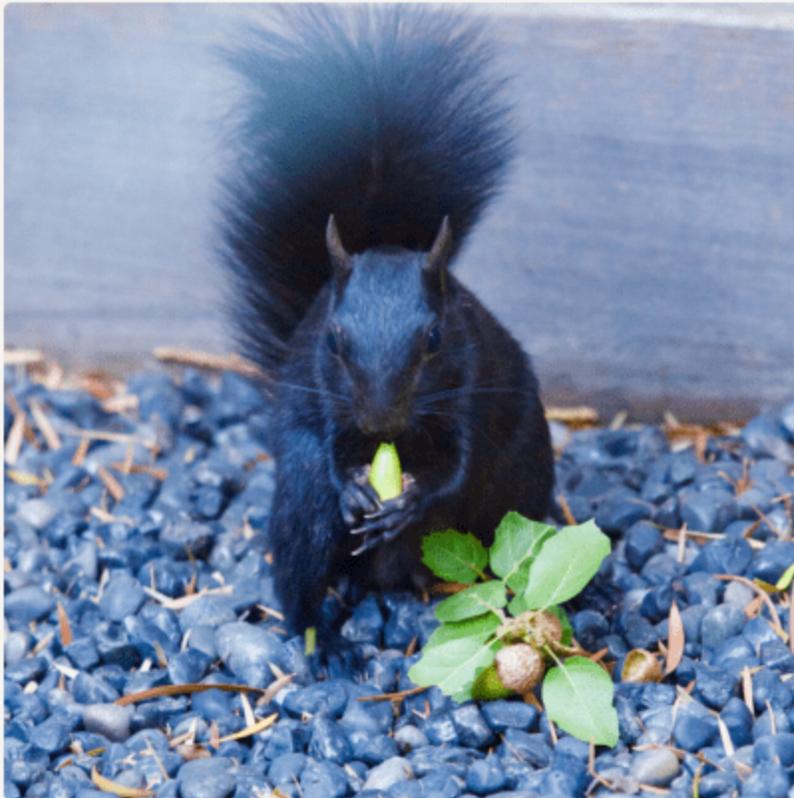

I asked BG if he would help. He might and I could try to incubate idea at bgc3 but it's gross there. I'm also not so keen as you know to run a company or startup a pharmaceutical company

Ok first steve funny. He sent me this picture and said you see even squirrels don't eat the crust.

This is because he refuses to eat crust from sandwiches or with pizza and he was trying to prove to me that no one eats crust.

02:52:52 am

Second steve funny. He was telling me that as he gets older he's been thinking more and more about what he should do with his arms while he sleeps.

02:52:53 am

I can't make this stuff up

02:52:55 am

Of the 53,364 people in the United States who were at least 100 years old, the ratio of women to men was nearly 5-to-1.
