[Redacted]

Just checking in how are you

05:38:05 pm

[Redacted]

dealing with hurricane devastaition

10:41:00 pm

list of smart people?

10:41:09 pm

[Redacted]

Ugh I'm sorry I know it's tough and bet everyone asking you for stuff

Haven't put together a list of the ppl writing all these reports for BG

10:41:41 pm

[Redacted]

ok

10:43:36 pm

2017/09/25

[Redacted]

Are you in NYC at all this week

01:26:05 pm

[REDACTED]  
yes  
01:30:29 pm

wed-sat  
01:30:39 pm

[REDACTED]  
Can I come see you Wednesday? I leave at 550pm back to seattle  
01:30:58 pm

Meet BG on Friday  
01:31:08 pm

2-4pm Friday 29th  
01:31:22 pm

[REDACTED]  
of course  
01:32:18 pm

[REDACTED]  
Ok will coordinate  
He's being so mean  
01:33:21 pm

[REDACTED]  
sorry  
01:33:52 pm

[REDACTED]  
See you soon!  
01:34:18 pm

2017/09/27

[REDACTED]

Thank you for time  
And pizza 🍕

05:18:07 pm

Met this guy

PETER MULLER  
Quant hedge fund

05:20:50 pm

👤

[REDACTED]

And

05:46:42 pm

👤

[REDACTED]

I liked him  
Very very smart

06:03:11 pm

Mary erdoes says hi

09:23:36 pm

👤

[REDACTED]

Give her a hug

09:24:17 pm

👤

[REDACTED]

She sends her love and says not to be a stranger

09:26:02 pm

I told her we met through trump - she didn't believe me!

09:26:41 pm

👤

EFTA01620738

People and paper can only handle seven doubling s. Weird

10:51:59 am

Very weird

11:19:21 am

The cellular number is 50

01:13:26 pm

For somatic cells

"Cellular senescence is the phenomenon by which normal diploid cells cease to divide. In culture, fibroblasts can reach a maximum of 50 cell divisions before becoming senescent. This phenomenon is known as "replicative senescence", or the Hayflick limit."

01:13:40 pm

The number is 120 years for the human organism I'm telling you.

01:14:52 pm

Genesis 6 verse 3, "The Lord said, Let My spirit not quarrel forever concerning man, because he is also flesh, and his days shall be a hundred and twenty years."

01:15:29 pm

Best case 120

01:15:36 pm

[https://en.m.wikipedia.org/wiki/Hayflick\\_limit](https://en.m.wikipedia.org/wiki/Hayflick_limit)

01:21:55 pm

Not sure why 50 but there must be a mathematical reason

Hmm ... Fifty is the smallest number that is the sum of two non-zero square numbers in two distinct ways:  $50 = 12^2 + 7^2 = 5^2 + 5^2$ .

It is also the sum of three squares,  $50 = 3^2 + 4^2 + 5^2$ , and the sum of four squares,  $50 = 6^2 + 3^2 + 2^2 + 1^2$ .

It is a Harshad number.

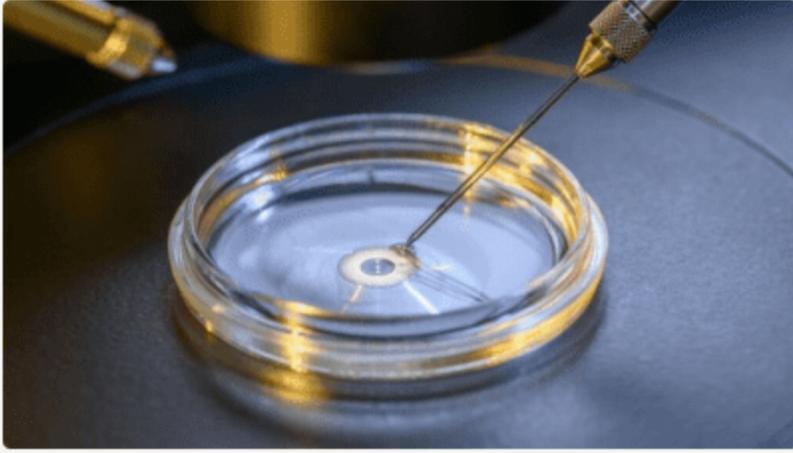

There is no solution to the equation  $\varphi(x) = 50$ , making 50 a nontotient.

Nor is there a solution to the equation  $x - \varphi(x) = 50$ , making 50 a noncototient.

01:31:49 pm

<http://www.bbc.com/news/health-41386849>

01:44:44 pm

By the way this is super super cool - DNA surgery (chemical ...)

01:44:44 pm

Stevie project - motion detection and capture of squirrels

06:56:16 pm

Larry will join my mtg tmr afternoon w BG at the bgc3 office - larry also invited two junior staffers

Larry will not join and is not aware of other meetings

But he's starting to really get annoying

Are there any signals I can send or words I can use to let him and BG know I'm not messing around ?

Any words I can use w larry directly or w him and BG

11:39:57 pm

oo

With bg. All you would have to say, is you should know that I've told jeffrey everything - everything

11:42:17 pm

oo

I am worried he will immediately retaliate against me

11:43:13 pm

oo

2017/09/29

You can always say I also like blue dresses:)

12:02:30 am

oo

I think I have Stockholm syndrome

12:17:59 am

Stevie just bought a gross (144 items) of his favorite tshirt because he thinks they will stop making them.

But he can't wear them.

Because they will stop making them.
