2017/12/21

you dissapered  
03:25:37 pm

HI!  
I've done 163 endovascular neurosurgery cases since October 1. Just trying to focus on something legitimate. It's very very difficult.

05:05:26 pm

How are YOU and hopefully you are doing something wonderful over there holiday ...

05:06:06 pm

Thanks for checking on me

05:06:09 pm

2017/12/25

I know you don't really celebrate but merry Christmas — hoping the holiday was filled with happiness and hope, and of course, FUN

Thank you for being my friend, all these years

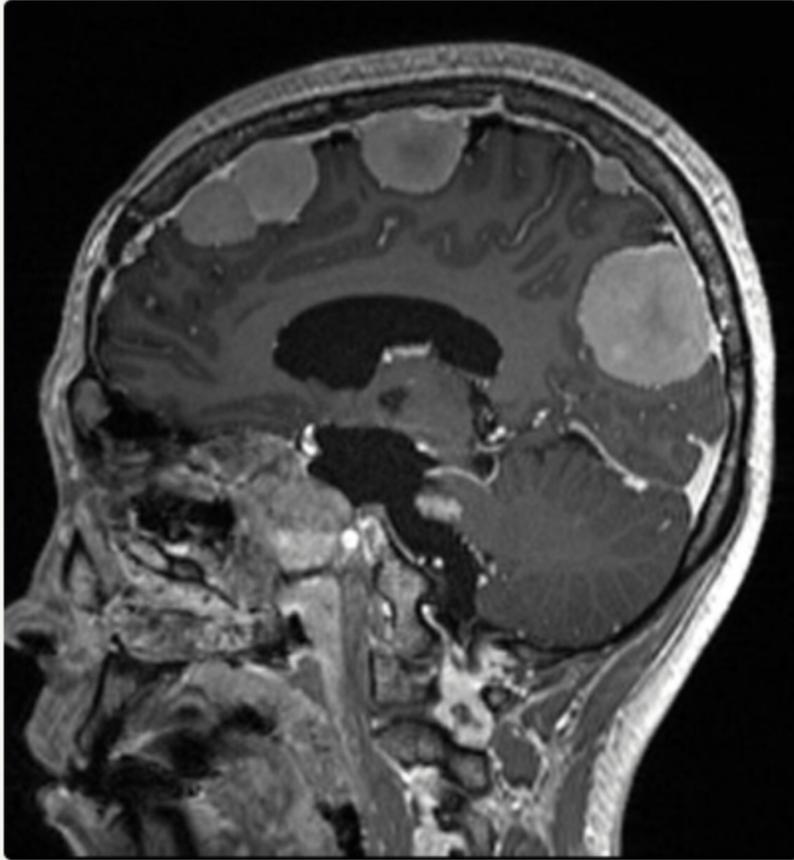

05:46:23 am

2017/12/27

Bummer for the patient but beautiful image

oo

10:39:37 pm

2018/01/01

Hny  
11:51:42 am

oo

Happy happy happy new year  
May 2018 be cooler and more fun than 2017  
08:27:17 pm

Hope to see you more this year!  
08:27:30 pm

B called - and sent me a note / best he can while being watched. More when we speak.  
Am Heading to Cambodia for a week / off grid  
08:29:46 pm

oo

2018/01/02

have fun. it seems you have been off grid all of dec?

12:37:42 pm

Tired  
Sad

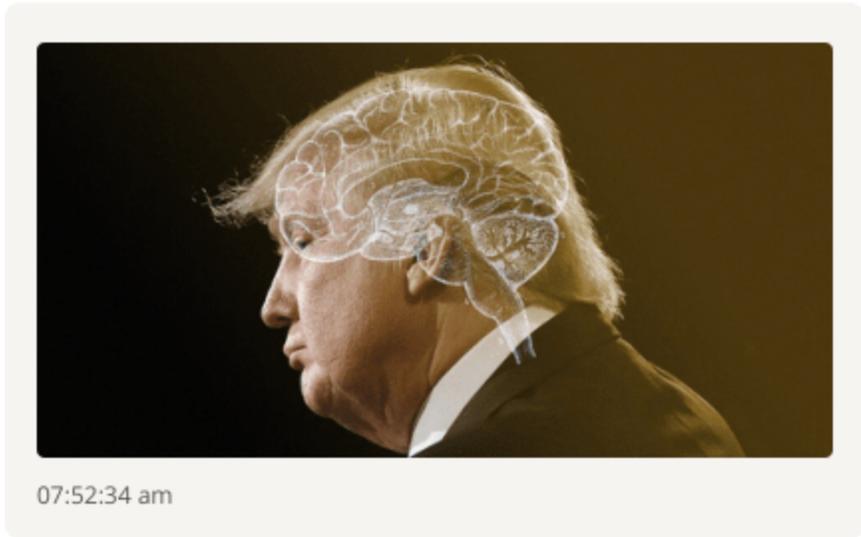

04:15:05 pm

07:52:34 am

Uh oh

07:52:34 am

yup  
11:10:46 am

2018/01/05

Should i reply to B or just ignore him  
02:59:20 am

of course reply  
10:59:14 am

No idea what to say  
11:07:06 am

I would tell him how you feel . as much for your benefit as for reality  
11:10:43 am

Ok. Done.  
11:43:52 pm

2018/01/06

Sent you an email / money question  
12:23:23 am

More of a legal and taxation question  
12:23:40 am

Hope you aren't in NYC freezing

Do you want to check in by phone Sunday noonish seattle to S

08:19:28 am

oo

Seattle Time

08:19:33 am

can do today or monday

11:05:47 am

oo

Just getting back in to seattle. Might need to be next weekend.

Nothing back from B usually takes a while and tmr he leaves for another trip

Things I'm thinking about :

1. Rockefeller is 2 years. Want to maximize it. They want me to find new and next in life sciences. Just is like a report and doesn't come with funding for those projects but could be stepping stone if I am wise and thoughtful.
2. What to do when endovascular neurosurgery fellowship is done in a year. Love it. Ideally will be able to continue to practice. This is for credibility and also enjoyment.
3. Want to pursue mitochondria idea. Will take 18 months max to prove and i don't have to be one doing research only directing it. Do as university research project or try to shape a business? Needs to start somewhere but ultimately I believe like you do that mitochondria transplant from plants to humans might be feasible.
4. Seems like a great time for a woman to try to step up and run or lead. Should I try to build a fund w someone like Mary Erdoes at JPM? Or a VC in Cali ? Should I try to join something else?
5. B seems interesting in supporting me as long as there are others. What could I do for next 5-10 years that is useful and great and creative?
6. Am super lonely and sad.

Otherwise that's it.

07:16:46 am

So we can discuss when you've got time

07:16:58 am

lay out mitochondrial test program, if you believe. . women time will be short lived so getonthe bandwagon.

10:45:10 am

Ok

06:13:32 pm

Crazy man you might enjoy talking to - says humans have their own WiFi

06:13:32 pm

I remember Murray GellMan talking of this too
