This 29 year Old just died on my table. Guess God said no. Can't even make this stuff up.

02:40:08 am

Was thinking ...

Has anyone ever done a PET scan on a live plant? They have all the same neurotransmitters we do. Like a dopamine PET.

Also wouldn't it be SUPER fun to just take a few plants and stain them for all the human neurotransmitters and publish the pictures?

Don't know many ppl who stain them but could look

Would be amazing

08:49:56 pm

Ill pay

08:50:26 pm

Dunno where to find a person to help me do it but how hard could it be? I think there's a plant lady here

08:51:07 pm

Also wouldn't it be amazing if all plants had ALL neurotransmitters? They have hemoglobin too and I dont know why

08:51:36 pm

But a PET scan on a plant would be awesome

08:51:45 pm

Did you have fun w Neal

How do the trees know it's fall
Weather isn't always the same
Do they track the moon?

senses
06:56:28 pm

Yes for sure
I think animals and most other species have evolved around their sensory systems
We just don't understand them

We classify by anatomy
06:57:10 pm

But if we were super smart we would classify by sensory

It's just the systems inputs
