Sole investor
08:52:45 pm

Makes me so angry. 20 employees and only investor etc and he did zero for me. Yes larry has supported him for a lot longer but makes me so frustrated.

Moving on is very hard

I am trying

08:57:45 pm

Wasting 15 years based

On his promises for promotion and support and nothing

08:58:03 pm

I still have all of my clothing in ziplock bags so I suspect if I get to a breaking point or if a group of people #metoo him I

Can join

08:58:56 pm

Might make me feel better

08:59:00 pm

He is always above the rules.

I think this happens to plants with serotonin

03:37:58 am

Here's a very crazy old Russian woman plant genius who studies neurotransmitters

Let's have a small

Convening w her and that Slovenian Plant guy and Stefano Mancuso

Somehow a theme or something to draw these folks together

Am trying to find a plant neurobiology person to collaborate and do some experiments
- could use that as an excuse

Europe (Paris?) might be easier since none are us based

Imaging
04:24:31 am

[Redacted]

Sort of
04:29:21 am

You first have to know what to image
04:29:29 am

Anatomy isn't interesting (MRI)
04:29:37 am

You want function or physiology

04:29:48 am

To track dopamine or serotonin etc

04:29:58 am

Need PET

04:30:00 am

BUT tricky how to get tracers/contrast in

No plant people seem to know and they think I'm crazy for asking

Like they stop talking to me

04:30:42 am

"Not possible"

04:30:54 am

"Ridiculous waste of time"
