07:16:53 pm

Was thinking maybe humans add value to plants by prouducing co2

07:16:53 pm

Shit  
07:46:11 pm

I have a super smart really old bonsai

08:23:04 pm

I've been watching him turn his leaves with the seasons

Gonna our a time lapse next year

08:23:43 pm

Put a time lapse

08:23:48 pm

Super efficient with energy

08:24:05 pm

The second the light stops all the leaves droop

08:24:16 pm

First light they all wake up so weird

08:24:25 pm

nice. see if it responds to music

08:24:28 pm

Ok next time I give it a trim I will play music

08:24:53 pm

It really hates hates to be trimmed and for 2 days after just spits out all the water we give it

08:25:18 pm

There's a regional bonsai master who comes once a month to check on this plant and I swear he knows when dr John is here

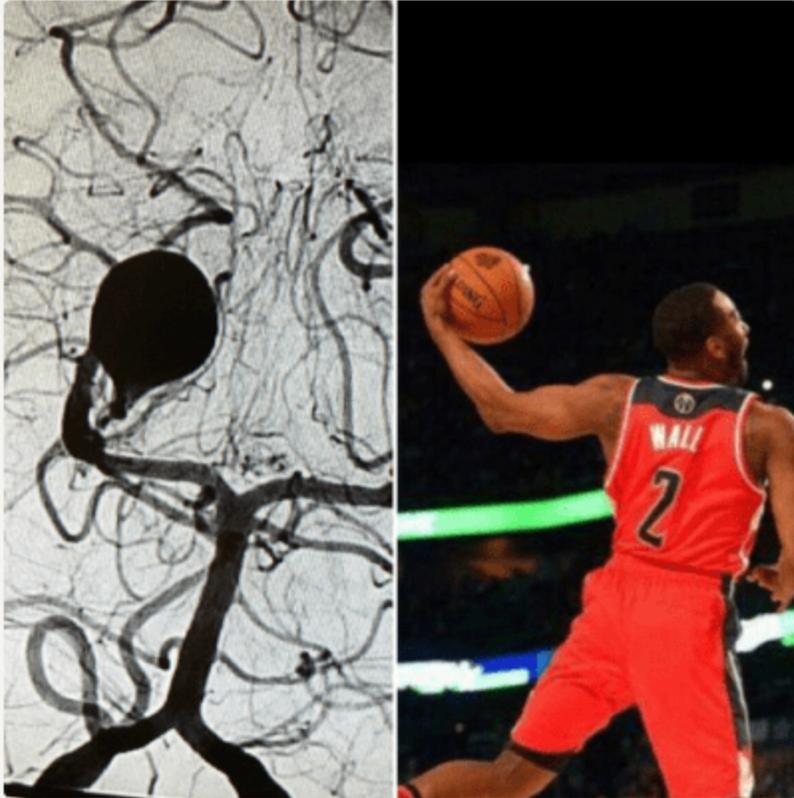

08:25:46 pm

This guy brings a weird worm tea that he brews

08:26:01 pm

Aneurysm

Slam dunk hahah

10:38:22 pm

Fun

10:46:31 pm

These are always scary two phase procedures where you try to occluded a little then quickly bypass the vessel

But the SLAM DUNK analogy is kinda fun

It isn't a slam dunk 😊

10:47:23 pm

Sent you thoughts on a maybe plant imaging thing see what you think

Wrote a proposal last night and can more formally submit once I find imagers

10:48:39 pm

Plant imagers

10:48:43 pm

There's a dedicated plant PET scanner doing different stuff but also maybe a way to do plant fMRI which is hilarious

Could i ever a UN ambassador ...? Is it an even greater waste of time or a better stepping stone than i have yet found? Have worked UN/WHO/WB and Gates and I can tell some terrific #metoo stories if required ... admin might be too crazy or I might not be right fit but thinking

Haven't seen trump since 1998

04:25:01 am

Guess I'm just feeling like I have ideas and energy and skills and nowhere to do them

05:13:05 am

One more year of rockefeller fellowship then not sure what

Any and all ideas appreciated and welcome

05:14:39 am

I'll fund
