██████████ I would like you to Read your texts to me..... Im not sure how to respond. I take the time , I try to guide. I try to explain. I take more time. I then try again. You tell me each time you understand . . and then.....

You say you want to learn . I repeated many times that "doing "is learning- : reading, watching thinking come AFTER "Doing ". It seems you prefer talking about life rather than living it. Not one time have you asked " how can i help?" What should i learn? , would you like something? Or can i get you anything, ? As you go to the kitchen. Affirmative desire to learn and then. I receive :Everything is good, thank you.

I sent you one more message.  
How do you feel?
