04:42:46 pm

My mom :)

04:42:47 pm

Charlie just replied: "I love [REDACTED]! I think I met some of your family there a couple of years ago - I played in the [REDACTED] at a Hugo boss event"

04:46:31 pm

"I'm in Monaco now but going to London tomorrow- I'm based in Florence though so you should come there."

04:49:45 pm

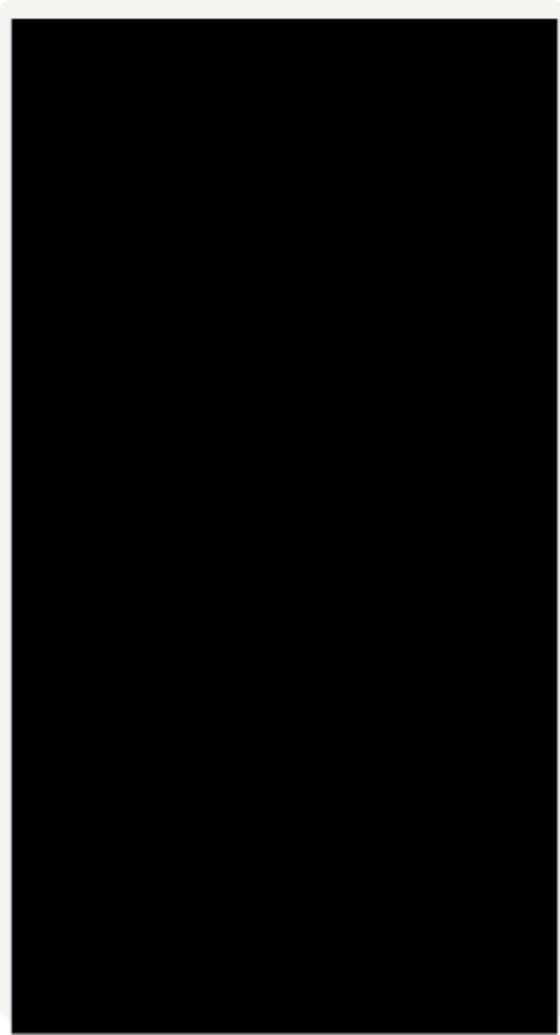

jeeitunes@gmail.com

sounds like fun, when will you be there?

06:35:45 pm

[REDACTED]  
What "sounds like fun" ??!

07:23:04 pm

Should I tell Charlie that [REDACTED] lives in Florence as well ?? He had a baby 10 days ago with his wife and he told me to come visit so anyways I had to go there one of these days

09:25:55 pm

jeeitunes@gmail.com

No explanation just say yes sounds good what day , ? [REDACTED] said he is not gay lives blowjobs

10:03:08 pm

[REDACTED]

I sent him the copy-paste of what you wrote ;)

10:09:00 pm

About not being gay?

10:09:43 pm

[Redacted]

Yes

10:09:53 pm

Hahahahaha

10:10:28 pm

Hope it will work :) Following ALL your directions !

"I'll be back there in July. What are your summer plans?"

08:57:08 am

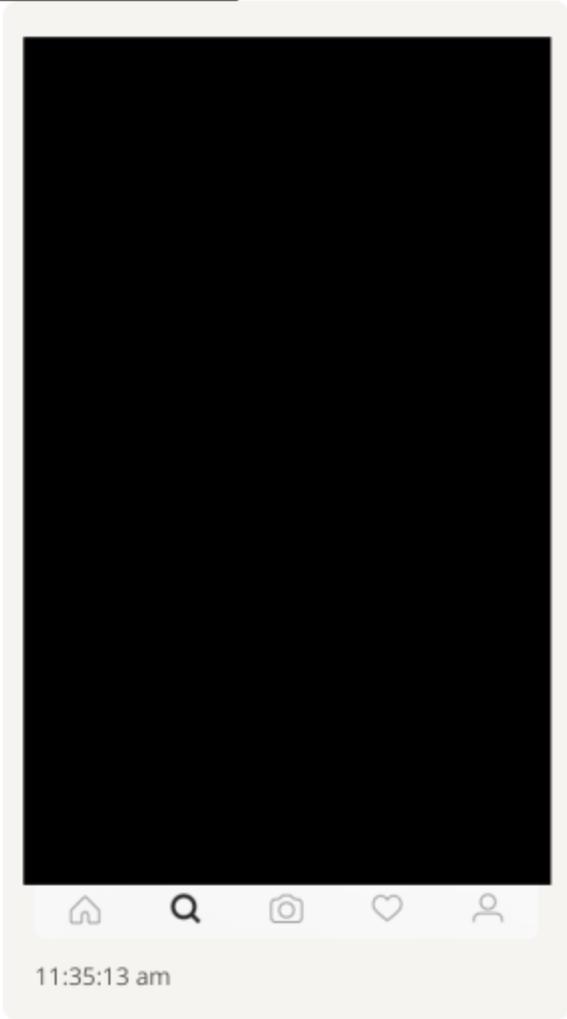

jeeitunes@gmail.com

will you be there the week of the 4th?

09:44:22 am

[Redacted]

11:35:13 am

Jeffrey I've got a problem with my heel that I forgot to tell you and I don't know what it is

12:50:30 pm

jeeitunes@gmail.com

Pain  
12:55:17 pm

Yes. I have since 2moths and I didn't do anything because I thought it would go away but it's actually getting worse...

12:56:27 pm

Before it was only when I woke up but now the pain is staying all day long

12:58:23 pm

I don't know what it is

12:58:32 pm

jeeitunes@gmail.com

What part of heel ? You will have to have an mri  
12:59:03 pm

Before it was just the heel. Now the pain is getting all over the border of the outside of my right foot

01:05:04 pm

It's only when I walk that I feel the pain

01:08:26 pm

jeeitunes@gmail.com

Bone spur??

### ^ Signs and symptoms

When plantar fasciitis occurs, the pain is typically sharp<sup>[9]</sup> and usually unilateral (70% of cases).<sup>[7]</sup> Heel pain worsens by bearing weight on the heel after long periods of rest.<sup>[10]</sup> Individuals with plantar fasciitis often report their symptoms are most intense during their first steps after getting out of bed or after prolonged periods of sitting.<sup>[2]</sup> Improvement of symptoms is usually seen with continued walking.<sup>[2][6][9]</sup> Rare, but reported symptoms include numbness, tingling, swelling, or radiating pain.<sup>[11]</sup>

If the [plantar fascia](#) continues to be overused in the setting of plantar fasciitis, the plantar fascia can rupture. Typical signs and symptoms of plantar fascia rupture include a clicking or snapping sound, significant local swelling, and acute pain in the sole of the foot.<sup>[9]</sup>

### ∨ Risk factors

01:26:09 pm

I think it's this

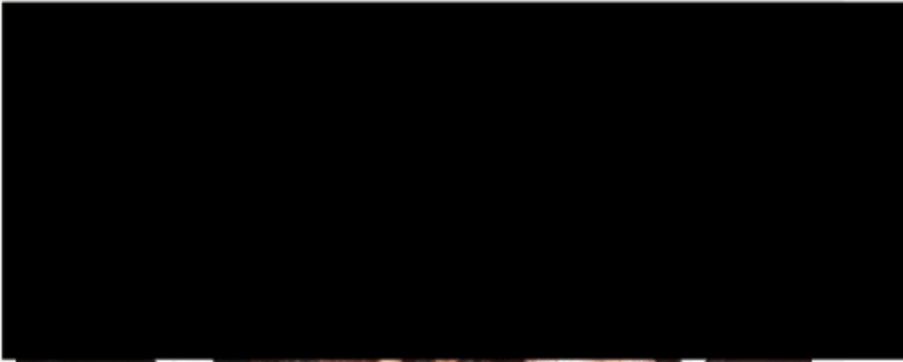

01:26:16 pm

Because of the inward rolling of my foot

01:27:00 pm

Not sure
