it is entirely safe to use Hyaluronidase to dissolve excessive Restylane that was place in your lips,

02:47:20 pm

dropbox? if you find a cosmetic person in barcelona that you want to use ill give daniel the money

04:30:41 pm

Hello, I was dealing with the aftermath of burning my food and cleaning up. I cannot find all The pictures I want to show you so I requested directly from the photographers to send to me again. Yes I was actually looking at doctors after we spoke and I was reading reviews some

Are quiet impressive. Because I have had my breasts done I cannot take them out completely but the alternative is to go down 2 sizes and instead of being round implants they can do a Brazilian tear drop which is so natural.

lets start with reducing the lips?

04:41:11 pm

Yeah the injections of hyaluronidase I will look now to see which doctor here I can consolidate for this

take out the piercing time to grow up .

08:52:11 pm

spoke to three of the best. . 1 are they saline or silicon. 2 they said it needs to be smaller an UNDER the muscle. 3 it depends on how elastic your skin is , for final determination. . where did you have it done previously, . ? i didn't know your race . 5 . each said that it can be fixed. with a long period before you knew final result as it depends on how much the natural skin shrinks. .

It was saline, the implant is a round implant also I'm sure the brand of the implant is german and the procedure is under the muscle already. It was done in Australia by a doctor called dr. Pouw in bondi, Sydney. Sorry for my late reply I was sleeping. Thank you!

great

10:32:06 am

if you need some money for your consultations. tell daniel

10:32:26 am

Okay thank you so much !

10:46:39 am

So I go to work now, but I have 2 consultations one on this Monday and one the following week but I asked her if she has any cancellations that to push me forward. So I will record what the doctor says to get your opinion :) on everything as well :)
