I want you to follow your dream but i would hope it would be balanced with reality. .
sorry,

01:59:09 pm

I believe so it is.. I'm not exactly asking for something impossible.

01:59:54 pm

Just need someone to believe in me and help me as I get there that's all

02:01:45 pm

She hasn't replied me maybe she went to bed but I will hear from her tomorrow

02:05:10 pm

I can go back to Australia by beginning of august do what I need to do to make my visa for America I don't think is imposible at all.. I'm trying my best always and I've never had the opportunity to have help from another person so I'm opening up to different possibilites to get to where I want. Impossible is believing it will happen tomorrow but if I set my mind to it I believe in it. Also I am being realistic if I cannot get to where I want within a year.. I will just have to save and get a job to pay for the study I want.

02:09:14 pm

Is it possible to do this ? To get a flight back home ? And I'll try my best from my side for the USA visa

02:21:59 pm

Does this doctor Roberto have a website also?

02:22:38 pm

I understand you have more important things to do then to sit here and listen to me and I am grateful and thank you but is in your hands if you want to help or not otherwise I will try on my own either way.

Not sure what you are asking for . A ticket to Sydney from Barcelona ?

no

02:53:24 pm

No i am just speaking about options I have

02:53:53 pm

If the only option I have is to get to USA within the next few months is what I will try my hardest for.. I can leave Spain beginning of august go back to Australia focus to obtain my visa for USA and then we can put everything else into action if youre still willing to help me

02:56:35 pm

I am not asking for a ticket of course I can try to buy this myself but I'm trying my best from my side if you wanted to help me I guess you could help me with this once I have finished the month here of work and then I can do the rest I'm really really motivated to get to where I want to be I just want you to have some faith in me

03:09:41 pm

I still have time... I wasted some

Time believing that someone loved me when they didn't. But I still have time. There are people much older then me who are still lost but I know the path I want to take I just need to get there. And I know success doesn't happen over night

03:12:50 pm

I am so upset this afternoon and I cried because I'm trying so hardy. I have to go to work now but I'll message you after if you have replied and if I've spoken to the dr

I believe in you, you, not you the model, you the waitress you the old girlfriend.
just you .

06:25:02 pm

I don't believe that hope is a strategy, it is the only thing that people that play the lottery have. , you are smart, you need to figure out next. get your breasts done. start school or a career . the modeling biz is not what it was . no money in it and little future. . sorry

06:26:31 pm

if you want someone to merely tell you what you want to hear, there are many boys that will. I cannot

06:27:18 pm

no

I never asked you to tell me what I want to hear, just asked for you to believe in me as much as I do

11:12:48 pm

Sorry I only just got data it expired last night

OkY i see what you are saying

So I still look for someone to fix my breasts then? I just want to be successful but the what I want is not a possibility right now because I cannot afford it yet

You are not asking my advice or truly to believe, you are merely asking for money do you can do as you think you should to be successful. It's ok with me but let's not drape the money in you don't believe in me . It is something you can tell people to feel sorry for you - I don't . I believe in your potential. Not your future as a model for 1 year . You have waited too long . The train has left the station. You have a great future as an adult

09:20:57 am

no

No i am not asking for any money at all, I am not this kind of girl never have I been. It's fine I will do all on my own and hopefully I will get to where I want. I didn't want to come off like that. I am far from what you just said. Thank you for everything

09:22:40 am

JM

jeevacation

I did not mean to insult you . My advice is to think of your future apart from modeling . If you find that advice insulting I understand if you prefer to discontinue our conversation

09:26:48 am

Good luck

09:27:01 am

o

No i didn't say the advice was insulting but I wasn't asking you for money ever. Just some Guiding. I was more than appreciative of being able to speak to you and to have another view of what could be great for me. No i like to have a sort of mentor in my life for me I don't lose anything and I see you as someone really down to earth who is on such a high level in this society and is really inspiring for me. I hope you didn't take the wrong way What I said? I would still like to speak to you

I am not shy about money. I had no money , i understand. i sent you money . i told you id pay for your doctor. the statement , you don't believe in me , is only meant for sympathy . own it

09:45:20 am

it is the statement of people that have yet to show results , but believe that belief is the answer. . Doing - is the answer. . you cane do it. It is very late for a modeling career. . I am aware it is disappointing , but as you rightly said actions have consequences. you wasted that part of your life. Having a dream is great. if you have little else. that is not you , you have a great deal.

09:47:22 am

no

did you speak tot he doctor last night/ ?

09:47:37 am

Yes understood, I will

Just focus my energy on trying to build myself. I didn't work with any girl last night who could help me she only speaks Spanish and could not translate for me so I'll have to try today again also I just recharged my data so by the time I got home I had no way to contact anyone. Soon as the shop opened in the morning I was on my way. I'm Still thinking there has to be another dr we could try I mean he's being super unresponsive with me when I do try to speak to him there has to be another dr we could consider

one of the doctors i spoke to in new york , said he would take out the implant , put in a very small one to see how the skin contracted 5 months. then finish with size. he said that few girls are willing to wear a compression bandage for that long. . I also thing that the doctor in brazil takes aug off for vacation

10:39:01 am

I just spoke to him

10:54:01 am

Finally

10:54:04 am

He said

10:54:07 am

For me he thinks 300cc is minimum to go he can do the incision underneath and Also around the nipple to minimize the extra skin and to fix the shape if needed

10:55:04 am

He said to change the profile of the breast because now is a high profile which is giving this big effect on the top

10:56:03 am
