01:23:52 pm

I have been consulting this doctor in brazil and I dunno I feel really comfortable with the way he's speaking with me and giving me his opinion and his reviews are all really promising from clients abroad

01:28:02 pm

He has told me he can do 340cc with no scaring super natural low profile

01:28:27 pm

I mean if I need to stop thinking of modeling at least I can think about not having a huge anchor scar

01:28:53 pm

Would you consider this doctor ?

01:29:02 pm

He tells me if I get the scar I will regret for the rest of my life because it's something I can't undo

01:34:03 pm

And he speaks English and is always responding to whatever question I have

01:36:12 pm

He has told me I would need to stay 10 days in Brazil

01:39:10 pm

He is rated number 2 doctor under Ivo being the first

01:52:22 pm

And he can take me early August

01:53:10 pm

The only thing is I need to apply for a visa in Brazil in advance

02:00:39 pm

Or I could possibly find a dr in Paris as you said I could do it there now before my visa expires here or I could find a surgeon in Australia then recover there ?

02:01:32 pm

Entering Brazil seems like it's going to be messy it takes 15 days to process a visa which I would need to do from the consulate of the country I am a resident of (Australia)

02:04:36 pm

The dr from
Brazil quotes me 5000 euros but if I want to go ahead with this I need to go to embassy
tomorrow to start a visa application

02:23:39 pm

Or maybe I just focus to get my American visa and once I have this do it in the states

02:28:06 pm

The other dr works in st Peters hospital in Brazil the one you suggested

02:38:14 pm

Sorry I'm totally spamming you with messages 😊 but If i can give myself 6 months I
can get to America I know I can and within these 6 months I will save some
Money I can do the operation there get my foot in the door right? I don't need to rush
it yet ? I can concentrate my energies on to this and work out like I have been get In
shape what do you think?

02:51:58 pm
