I haven't heard from you regarding Paris and I don't want to add more pressure on you as you have a lot going on. I think it would just be easier if we did it another time. We're going to make other arrangements. If we see you there great. For us we need more of a timeframe. I know you don't work like this but we have logistical issues. [Redacted] is at camp, she start school soon, [Redacted] starts boarding school soon, Woody starts filming soon.

i watched bergman interviews as he explains what he was doing. That is what i
needed to de code the film. I didn't like chinese music, until it was explained to
me. then it was great. . or not understanding japanese gardens until i read the right
book on the subject and it became clear. so give woody a thanks for his urging

11:28:26 am

looking through a telescope is boring after 2 minutes unless lawrence krause explains what you are looking at.

11:33:17 am

oC

You are approaching it incorrectly. You're approaching it from an intellectual point of view like homework and that takes all the fun out of it. If you don't like Bergman, which I know you don't, that's fine. I'm sure he's way too sophisticated for your taste. Should I now get you the box set on Bergman's movies?

11:34:34 am

oC

jeeitunes@gmail.com

No .to the contrary Bergman describes his creation as a living breathing thing . That was the trick . Just admire it

11:49:41 am

The last time you said you would get a movie

11:51:00 am

oC

Very funny. That was not my fault. John Burnham promised me a DVD of it. I asked him again and he said he was on it as he wanted a DVD as well. Usually he's very reliable. Probably because he knew it wasn't for me he dropped the ball. ;) Ur actually right about Bergman because if Woody hadn't explained it to me I wouldn't have understood the Seventh Seal either.

I'm watching Wild strawberry on the plane today .

11:56:51 am

oC

That'll put you right to sleep. I don't like that movie.

11:57:21 am

Woody told me to go shopping because I'm making him nervous. Isn't he hilarious? I'm naturally not going to listen to him.

04:39:04 pm

We made the Lawrence Krauss dinner on Saturday, September 17 so now we can come over to meet with Donald Trump's people on the 18.

her doctor is going to claim pneumonia as an excuse to keep her home in bed.

09:46:57 pm

[REDACTED]
It's not surprising that she would be exhausted given the fast pace that she has had to be on.
