Name: Epstein, Jeffrey **Scan Date:** 09/06/2016
MRN: 7206913 **Acc Number:** 1497253
DOB: 01/20/1953 **ReferringMD:** Rony Shimony, MD
Age/Gender: 63/M **AttendingMD:** Adam Jacobi, MD

Summary

CT without contrast was performed for coronary calcium, chest, abdomen and pelvis evaluation. Reconstructions were transferred to a workstation for further analysis.

1. Coronary atherosclerosis without significant stenosis.
2. The calcium score is 63 (53rd percentile adjusted for age, gender and ethnicity).
3. Normal left ventricular size and systolic function. No regional wall motion abnormalities.
4. No abdominal aortic or iliac arterial aneurysm.

C reactive protein high
10:00:24 pm

Moscowitz

Cardio?
10:02:30 pm

jeeitunes@gmail.com

???
10:03:03 pm

Moscowitz

Two types cardio creative and plain

10:03:51 pm

jeeitunes@gmail.com

I sent full labs due d you not get it ?

10:04:46 pm

Moscowitz

No

10:05:14 pm

2016/11/21

jeeitunes@gmail.com

How long does the scan take ?

03:20:50 am

Moscowitz

probably 20. Min

03:22:01 am

jeeitunes@gmail.com

Last time took hours for the drug uptake is this different

11:12:46 am

Moscowitz

Uptake is different from scan time will check

12:44:59 pm

So the choice is cornel or Mount Sinai east river stopped doing the scan

01:15:48 pm

3 hours total time
01:20:13 pm

2016/11/22

Moscowitz

Call me about scan and an alternative
11:43:02 am

Actually 7 am or 1230 tomorrow or Friday
08:04:41 pm

jeeitunes@gmail.com

Can you do 9 I land 830 otherwise Friday
08:26:56 pm

Moscowitz

Friday
09:43:45 pm

jeeitunes@gmail.com

I
09:44:13 pm

Ok
