10:14:18 am

Well I guess explaining myself is a bit complicated, because I like everything and I have always been independent of my parents. I love animals so in my life they have always taken a priority, thus I have spent most of my free time in countryside to make them feel better. Therefore I appreciate more natural things.

10:17:49 am

jeevacation

what do you parents do. where do they live. brothers sisters?

10:18:39 am

[REDACTED]

My parents both come from smaller countryside places and moved to capital when were young, where my father based his construction company.

10:18:43 am

[REDACTED]

10:18:52 am

And I have two brothers - one smaller and one older.

10:19:07 am

But parents are divorced, yet we kind of all live together.

10:20:00 am

Mother is working as a gardener, she really likes it.

10:20:26 am

Oldest brother is working in father's company, me and my smallest brother also have worked there, each of us start doing some work already around age of 12, so not to waste summer time))
