Finished story of O... crazy.. hard to say if the physical pain and use is more emphasized that the emotional use of her.

06:29:22 pm

Hmm.. and I thought about what you said about the speed of vibration, The thing is that usually videos are 20 min long and I cut out the part of 3 min from each, usually from end when there is some action. Since if longer I usually have problems uploading 😊 so I guess it is always the point when I change speed. Because I do like you said, I start with the lowest and increase it only at the end when I can't handle it anymore
