we should find you a real full time school or full time job , its important for your futre

11:37:09 am

Yes. I just don't know what. In may I have to go to be teaching assistant at school for few weeks, after that no plans. And I guess it doesn't work like that but I would like to learn how to create money, I mean nobody who is fully happy if is working just for company, I mean you create work yourself, you are free, travel, people do some kind of investments that create value for them, I want to learn it. Do business. But I don't know how it works, so maybe i can also do something in hotel business or real estate, which is I guess also not the best business now.

it is not really about hotel it is about organizations and biz, the only real way to understand a biz is to have every job in the company, from cleaner to front desk, to president. .
