I am not too worried for a scar because my skin seems to heal very well what is your opinion on this ?

05:08:39 pm

jeevacation

dark skin more difficult. thats why surgeon needs to be best. the cutting and stitching are the most difficult. and it will take a year before they heal and breast fall. . ask you sister to take full front and side . the key is nipple placement. and side of breast fat.

05:11:13 pm

Okay I will ask her

05:12:03 pm
