Hello [REDACTED],

Please find a supplemental list of victims provide by SDNY below:

(U//FOUO) [REDACTED]
(U//FOUO) [REDACTED]

I am also attaching a list of other victims provided by CACHTU. The CACHTU list has been filtered to exclude any individuals previously identified by a review of indexed victims in Sentinel case 50D-NY-3027571. I was asked by SDNY to please remind anyone who receives this information that it should be treated with the "strictest confidentiality and sensitivity." SDNY will continue to provide additional names as they gather them.

Sincerely,

Subject: Minor Victim List - 50D-NY-3027571

Good Afternoon Spencer,

We exported the complete list of victims serialized in Sentinel and have identified the below minor victims at this time:

Please note that the majority of the victims either do not have DOBs or victimization dates associated in Sentinel so I will need to manually review 302s for additional identifiers to provide a more complete list.

I have also attached the full victim name export as an excel spreadsheet attached to this email. Identified minor victims are highlighted in green. The 31E-MM and 72-MM cases have no indexed victims and so the serials in those cases will also need manual review to identify any victims.

I notified Laura who is working on pulling the VNS list of victims.

Sincerely,
