Hi [REDACTED],

Please see attached a FD-302 referencing what is contained on 1B-136. This drive contains highly confidential responsive material from devices that were processed by CART. After a review of devices, images and videos that had partial or full nudity were maintained on this hard drive for reference. As you'll see in the 302 there is a CART number with the associated 1B number and how many highly confidential images and videos each contains.

Let me know if you have further questions.
