Hi Everyone - I just wanted to let you know some feedback I have received regarding the meeting; so you can inform Executive Management if asked.

Following the meeting I spoke with victims who stated that they appreciated not be forgotten. That holding the meeting meant they were valued and important. They are really struggling now and it meant a lot. I heard this from three victims. They stated they really appreciated the information given at the meeting and the AUSA's explanation of the process. The individualized packets were also appreciated.

I also spoke with two who were not able to make it and they felt the same; and did not realize the impact of the crime. They are really in need of counseling and did not know where to begin.

Let me know if you have any questions. I will let you know other feedback as I hear it.

Angela
