Hi [REDACTED] - hope you are doing well! I was going to reach out to you this week regarding this. I know we have an updated spreadsheet that the case agent has given new victim info to [REDACTED]; who has been maintaining the spreadsheet. We are in the process of entering it into VNS. Would you like us not to enter into vns and send you a copy of the spreadsheet?

Let me know what works best.

Thanks

Hi [REDACTED]! Attached is our updated list for US v. Epstein. The AUSAs gave us names of victims but we don't have contact info for them. They are listed below. Do you have their contact info? Or can you ask the case agents?

Thanks for your help!

Hi [REDACTED],

Thanks for making those changes. Looks like you weren't able to get contact information for several of the victims. What is the easiest way to accomplish that—do you want to touch base with our case agents? Or should we take certain steps? Thanks.

Hi [REDACTED], attached is the updated victim list. Please look it over and let me know if it's accurate.

Also attached is the notification that will be sent to these victims. Can it go out? Thank you.

Apologies—there is one more victim who should be added: that's [REDACTED], also represented by Brad Edwards. Thanks.

Hi [REDACTED],

Thanks! I know everyone has been moving quickly on this, so understandably there are some errors in the system. Is it possible to make the following corrections to the VNS system? In addition, I've listed below several victims who should be added— are you able to coordinate with FBI to get their contact information, or should we ask them to add them to the system?

Hi [REDACTED], you're welcome! Please see attached. The list was pulled from VNS and I edited it the best I can. Let me know if you want it in a Word version and I'll work on that next week.

Thanks for putting together the next round of notifications. Would it be possible to email us the list of victims you have indexed (and their attorneys, for notification purposes)? Because of the volume of victims, it would be great if we could double check that everything made it into the system, and also check some of the spellings.

Thanks!
