I have spoken with [REDACTED] on multiple occasions and have referred her to [REDACTED] (sexual assault services organization) in [REDACTED]. She met with an advocate there and they have begun working with her.

Her biggest issue is that she is homeless. She also doesn't have current identification. [REDACTED] has ordered her a birth certificate so we can then get a valid ID to assist in getting employment. They also gave her food cards to the local grocery store.

She is currently refusing any housing assistance. She has a dog and she is unwilling to leave him for any reason. She is living in a tent near the river in [REDACTED]. As of right now, that is where she wants to be.
