---

Hi [REDACTED],

Yes, those would be great options. Anything you think may be helpful to her should she need some additional care/crisis intervention. We are making folders, tailored to the individual/their AOR, and just really want to have some resources outlined for them in hopes that it will encourage them to seek help if necessary. It also eliminates the daunting task of them having to search because that can be one of the most overwhelming tasks.

Thank you again! We really appreciate it!

[REDACTED]

Good morning,

Sure thing 😊

Is the victim an adult female – Maybe looking for counseling/groups ?

**Subject:** Victim Resource - Epstein Case

Hi Ladies,

I hope all is well with both of you. I have a request with a very quick turnaround.

One of you have a victim of Jeffrey Epstein living in your AOR (Oakwood, OH). She is attending the victim resource briefing in New York on Wednesday. We are making individual packets for each victim and including vetted, trauma-informed counseling resources. Could you please send a resource or two (in an attachment) so we can add to this victim's folder? If you have a PDF of a brochure, that would be perfect. We'd like to have this information by Monday COB. Please let me know if you have any questions.

Thank you,
