Re: JE/GM: Just spoke with [REDACTED] and she has provided services and/or has had engagement with all victims in the case (70+). GM case has only 4 victims and they are not distinct from JE case and no new services provided. [REDACTED] has provided comprehensive services to include multiple family briefings, crisis intervention, evaf, transportation, and referrals.

[REDACTED]

I ran both cases in VSATT, both were negative. On the 50D case, I ran six or so victim names to see if services were logged under a different case # for some reason, and nothing popped there either. To recap [REDACTED] response from the San Diego VSs, [REDACTED] had engagement on the 318A, but she is out of the office so no ability to gather more data on that one until she returns.

I am waiting to hear back from [REDACTED] on the 50D Case. As several requests for information went out to various PMs due to covering for one another [REDACTED] I have cc'd all on this response and ask that if anyone received information back from a VS on either case below, please forward immediately to [REDACTED] and cc all on this email chain.

Thanks,
