I didn't get the case number to come up at all. I ran it multiple times and it didn't come up. I wonder what the issue is, I'll check with Calvin tomorrow. Specific to Ghislaine, on those 4 victims have you provided services?

Hey [REDACTED] the case is the same number as Epstein. I actually emailed our VSATT person a couple weeks ago as there were only maybe 20 victims showing up and I had entered almost at least 70 over a year and half ago. There are only 4 victims on the Maxwell case.

I had given [REDACTED] a synopsis a couple months ago - I can look for that as well. We had two victim briefing two years ago located in Miami and new York. I have spoken to almost all of them including their legal representation. VSD provided EVAF covering 12 counseling sessions for those who were victimized in Florida as crime compensation did not cover due to statute of limitations. I connected at least half to trauma focused therapists all over the country. I provided crisis counseling to most as I called them for case updates after he killed himself.

I'm free to talk now and can you give you more details if you would like.

[REDACTED], please see below and let me know as soon as possible how many victims you have engaged with on the 50D case (if any) and any other context you might be able to provide in terms of victim assistance you may have provided to date. I checked VSATT and there is nothing in there with regard to the below case #. Sending to you as you are listed as a case participant.

Thanks!
